Half of the people you see on the streets are going to be from stores and of the women, perhaps, three-fourths are! And, of these, the majority are going to stores to investigate advertised offers. Some of them every day, secure "bargains" which YOU MIGHT HAVE SECURED, things you NEED, and (at the reduced price) you could have AFFORDED TO BUY.

THIRTEEN YEARS OF EXPERIENCE

Has taught us the chattel loan business requires more attention to detail more human kindness, and more good judgment to successfully operate and build up a satisfied clientele than does any other line of business. We strive to give our patrons perfect satisfaction, but never lose sight of the fact that to continue this policy it must be honest, courteous, conservative and accommodating at all times.  
Stability depends, in a large measure upon able, clear management and the ability and willingness to advise and help customers when that help is consistent with good business principles. These features we have successfully carried out without detracting in the least from our conservative and well balanced plan of conducting the loan business in the best interests of the people. We make more loans than all our competitors combined. There is a reason.
